Blogs (Design and Share Ideas)

- Implement a blog management system. This software can be used by multiple users who will be able to do following things.

● Database design (ER Diagram)

● Important points to note

- This is web based application.
- User should be able to do registration / login / logout.
- Also each user should be able to add categories and list all categories.
- User can create new blog, can edit only his/her existing blog, can search for any blog and also can delete only his/her own blog.
- User should be able to see his/her blogs as well as all the published blogs

● UI design

1. Login

Login	
Email	<input style="width: 100%;" type="text"/>
Password	<input style="width: 100%;" type="password"/>
<input type="button" value="Sign in"/>	<input type="button" value="Sign up"/>

Login

2. Registration

Registration	
Email	<input style="width: 100%;" type="text"/>
Password	<input style="width: 100%;" type="password"/>
Full name	<input style="width: 100%;" type="text"/>
Phone No	<input style="width: 100%;" type="text"/>
<input type="button" value="Sign up"/>	

Registration

3. Menu Board (After login)

Blogging App	
<div style="border-bottom: 1px solid black; padding-bottom: 5px;">My Blogs</div> <div style="padding: 5px 0;">All Blogs</div> <div style="padding: 5px 0;">Add Category</div> <div style="padding: 5px 0;">Show Categories</div> <div style="padding: 5px 0;">Add Blog</div> <div style="padding: 5px 0;">Search Blogs</div> <div style="padding: 5px 0;">Logout</div>	

Menu Board

4. View all / my blogs

All Blogs / My Blogs				

All and My Blogs

5. Create / Edit Blog

Edit / Create Blog	
-----	Title : <input type="text"/>
-----	Contents : <input type="text"/>
-----	Category : <input type="text"/> ▼
-----	<input type="button" value="Create"/> <input type="button" value="Cancel"/>

Create Blog

6. Search Blog

Search Blog																					
-----	Keywords : <input type="text"/> <input type="button" value="Search"/>																				
-----	<table border="1"> <thead> <tr> <th>Id</th> <th>Title</th> <th>Category</th> <th>Date</th> <th>Action</th> </tr> </thead> <tbody> <tr> <td></td> <td></td> <td></td> <td></td> <td><input type="button" value="Edit"/></td> </tr> <tr> <td></td> <td></td> <td></td> <td></td> <td><input type="button" value="Edit"/></td> </tr> <tr> <td></td> <td></td> <td></td> <td></td> <td><input type="button" value="Edit"/></td> </tr> </tbody> </table>	Id	Title	Category	Date	Action					<input type="button" value="Edit"/>					<input type="button" value="Edit"/>					<input type="button" value="Edit"/>
Id	Title	Category	Date	Action																	
				<input type="button" value="Edit"/>																	
				<input type="button" value="Edit"/>																	
				<input type="button" value="Edit"/>																	

Search Blog

7. View Blog Details

Blog Details	
-----	Blog Title :
-----	Contents :

Blog Details

- o Please also refer attached screen shots.
- o Note that these are reference screen shots for functionalities. Your program output should be well formatted.

SUNBEAM

Happy Programming!!!
